

SECUROX® ST

FILTER CARTRIDGE HOUSING

For food and industrial applications

- adaptable to desired performance with possibility to add filter area
- short period of time for regeneration and sterilisation
- integrity test for cartridges (sterile filtration)
- easy replacement of the cartridges
- base plate to accommodate standard filter cartridges with bayonet adapter and double O-ring
- Also available as compact, movable system. Custom design versions for the pre-, final and sterile filtration

Closing mechanism

Closing mechanism with swing bolts.

FILTROX quality assurance

FILTROX assures the best quality control according to international standards:

- ISO 9001 (Quality management)

Certificates and special documentation

Typically for pharmaceutical or near pharmaceutical applications we provide the following documents on request:

- FDA certificate
- EU guideline 89/392/EWG
- Material certificate 2.2 or 3.1 B (only for material in direct contact with the product)
- Surface roughness (< 0.8 µm[Ra])

Optional certificates

Optional we can provide the following certificates:

- ASME (U-Stamp)
- Guideline ATEX 94/9/EG
- Pressure vessel guideline DGR 97/23/EG
- Ferrite measurements
- Welder certificate

Options

The typical setup requires gauges and valves, as well as a check valve. SECUROX® is available in many options:

- Connections can be triclamp (sanitary), or dairy (DIN).
- Gaskets: EPDM (standard), silicone, viton® or teflon® encapsuled

Characteristics

The SECUROX® is a high precision stainless steel filter housing for filter cartridges, designed and manufactured for heavy duty use – 24/7.

The enclosed system allows high capacity filtration with no drip loss (no edge leaking).

Applications

SECUROX® series filters are made for a broad field of solid liquid separation applications. The technology is designed for high service life of filter media and equipment.

Its high filtration performance, top manufacturing quality and comprehensive set of certificates meet the high standards of sensitive applications such as:

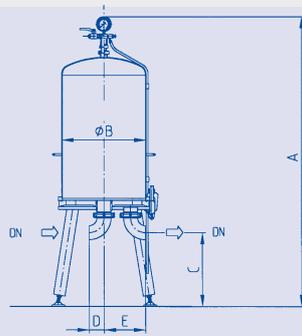

- Wine, beer
- Fruit juices, cider
- Spirits, distillates, liquors
- Water, mineral water
- Sugar sirup
- Herbal extracts
- Enzymes
- Cosmetics

Advantages of the SECUROX® – cartridge system

- vertical construction
- smaller volume of the unit

Standard variations:

Variation A

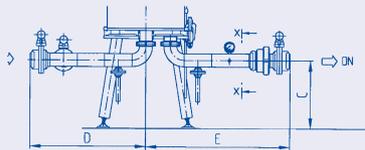

Material of housing: 1.4571 (AISI 316 TI)

Air vent assembly

Product inlet:	tub bend 90°
	Thread up to 5/3, others tub bend 90°
Product outlet:	Thread up to 5/3, others tub bend 90°

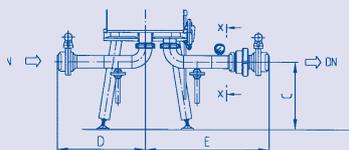

Variation B

Air vent assembly

Product inlet:	Butterfly valve (product)
	Butterfly valve (water)
	Drainage valve
Product outlet:	Drainage valve
	Pressure gauge
	Sample cock
	Non-return valve
	Butterfly valve

Variation C

Air vent assembly

Product inlet:	Butterfly valve
	Drainage valve
Product outlet:	Drainage valve
	Pressure gauge
	Non-return valve
